### **Kubtec to install XPERT 80 specimen radiography system at Yale University School of Medicine**

Fairfield, CT, February 28, 2006. Kubtec has received an order to place an XPERT 80 specimen x-ray system in the laboratory of Dr Agnès Vignery, Associate Professor in the department of Orthopaedics at Yale University School of Medicine, New Haven, CT. The XPERT 80 is to support research studies on osteoporosis currently being conducted in Dr Agnès Vignery's laboratory.

“This is an important addition to our laboratory. We look forward to the advantage the XPERT will provide us in facilitating and advancing our research” said Dr Vignery, who has authored several studies and is considered an expert in the field of Osteoporosis research.

#####

**ABOUT Kubtec** – Kubtec is a manufacturer of compact digital x-ray inspection systems for specimen radiography, science and research, security and non-destructive testing. Kubtec is also the only manufacturer of the world's largest digital detector based specimen radiography system. Systems and components along with local support are available around the world.
