### **KUBTEC supports ‘The Fight Against Breast Cancer’ with donations at RSNA 2008**

Milford, CT, November 12, 2008. Kubtec will introduce their newest product innovation at RSNA 2008. To inaugurate this new tool for the biopsy suite, the XPERT 20™, and to lend their support in the ongoing fight against breast cancer, KUBTEC will donate \$2 for every badge that gets swiped at their booth number **1345** in the Women’s Imaging Pavilion.

The money will be donated to *Passionately Pink For The Cure*, a program of the Susan G. Komen For The Cure. “We have been attending RSNA for a number of years now, and have always had a great response to our products,” said Susanne Dresser of KUBTEC. “This year we wanted to do something to honor the people we do this for; the patients, the newly diagnosed, and those who have been cured. Not to mention the staff, the doctors and surgeons, the researchers, educators, families, friends and all the other people that participate in the struggle against breast cancer.”

Along with the new XPERT 20 for the biopsy suite, KUBTEC will display the XPERT 40, the only system in the world available with a 20 cm x 20 cm detector for imaging surgical breast specimens, and the XPERT 80-L for research applications.
