### **NIH to purchase the Kubtec XPERT 80 digital Specimen Radiography system to be located at the National Heart Lung and Blood Institute**

Fairfield, CT, September 14, 2007. Kubtec has received an order for an XPERT 80 digital specimen radiography system to be placed at the National Heart Lung and Blood Institute in Bethesda, MD. The XPERT 80 is to support research currently being conducted in the laboratory.

According to Spencer Green, Lab Manager, Hematology Branch, NHLBI, “the XPERT 80 has been chosen after a thorough investigation of the available products. It is an important tool for the laboratory and will provide a big advantage in advancing the research currently being carried out.”

#####

**ABOUT Kubtec** – Kubtec is a manufacturer of compact digital x-ray inspection systems for specimen radiography, science and research, security and non-destructive testing. Kubtec is also the only manufacturer of the world’s largest 400 mm x 400 mm digital detector based specimen radiography system. Systems and components along with local support are available around the world.
